Installation instructions

WARNING

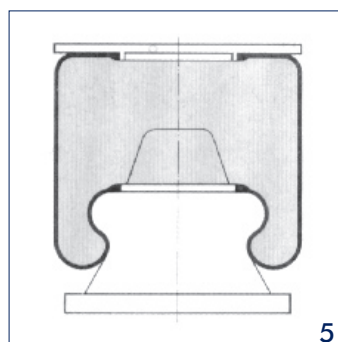

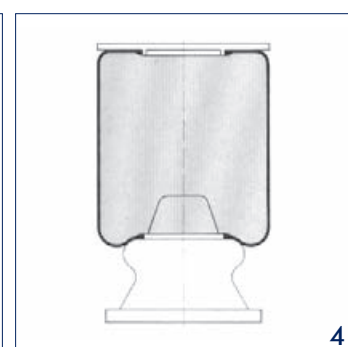

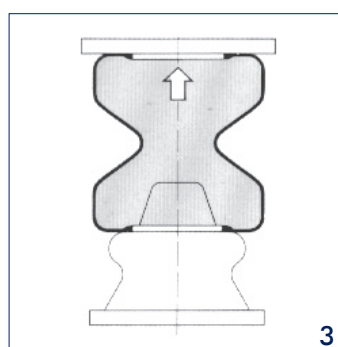

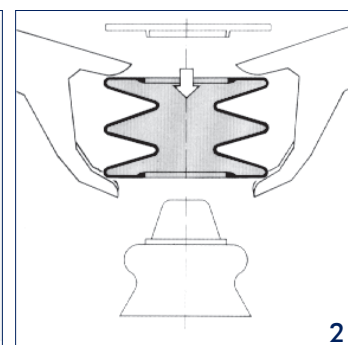

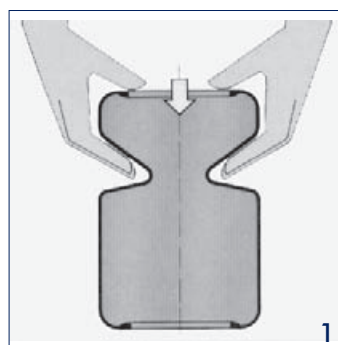

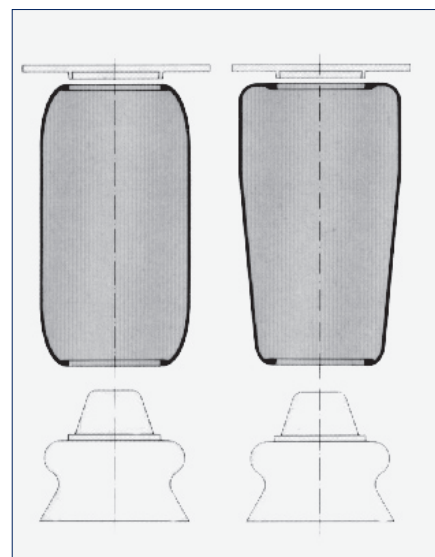

DO NOT inflate unless fully secured in the suspension or other adequate structure at design height. Do not inflate to more than 100 psi / 7 bar. Otherwise Bodily Injury Could Result!
Working temperature:
-40° C to 70° C, -40 F to 158 F.

How to remove the old air bellow (rolling lobe type):

Jack up your vehicle as high as possible. Deflate the air bellow. Place a tyre lever between the upper bead of the air bellow and the clamping plate. Press the bead away from the bead seat of the plate. (Take great care not to damage the bead seat!) Pull the air bellow away to one side. Do exactly the same with the lower bead. Now you can remove the air bellow. In case of conical rolling lobe air bellows, place the narrower end of the position.

How to fit a new rolling lobe air bellow:

1. Clean the bead seats on the clamping plate and spring piston and check that the mounting hardware is free of burr and is not corroded. Replace it if necessary. Apply a soap solution or an approved fitting lubricant to the bead seat on the piston. Push the air bellow in below the upper bead and compress it to the width of a hand's span.
2. Place the folded air bellow between the piston and clamping plate.
3. Fix the lower bead to its seat on the piston and the upper bead to its seat on the clamping plate.
4. Pressurize the air bellow so that its beads fit properly between plate and piston. The beads should snap in audibly.
5. Lower the vehicle and the air bellow will roll automatically down the piston. The bellow is now fitted.

Air spring

PE number system for air-suspension bellows

084.059-71A = 7	PE
084.059-11A = 1	ContiTech
084.059-21A = 2	Phoenix
084.059-31A = 3	CF Gomma
084.059-41A = 4	Goodyear
084.059-51A = 5	Firestone
084.059-61A = 6	Dunlop

Example

The penultimate figure of the PE order number determines the manufacturer of the air-suspension bellows.

084.060-70A = 0	w/o metal components
084.002-11A = 1	with discs or pistons
084.004-12A = 2	
084.052-73A = 3	
084.052-14A = 4	ditto, additional completion level
084.105-75A = 5	
084.107-76A = 6	
084.107-77A = 7	
084.107-78A = 8	
084.107-79A = 9	

Example

The last figure of the PE order number differentiates the different completion levels.

engineering and technology created in Germany.

With the PE patented light construction solution, the unsprung mass is reduced by around 6 kg with a 3-axle assembly.

Further technical notes, usage information and comparison figures can be found in our eCatalogue under

www.pe.de

Mit der von PE patentierten Leichtbaulösung wird die ungefederte Masse bei einem 3-Achs-Aggregat beispielsweise um ca. 6 kg verringert.

Weitere technische Hinweise, Verwendungsinformationen und Vergleichsnummern finden Sie in unserem eKatalog unter

www.pe.de

Shock absorber and accessories

engineering and technology
created in Germany.

Innovative catalogue management.

Always up-to-date thanks to Product Information Management (PIM).

As the market leader for commercial vehicle replacement parts in the independent after-market, clear, accurate product information is crucially important for PE. The high quality, centralized product database allows flexible, automated production of catalogues, coupled with comprehensive up to date information about the complete PE product range via the eCatalogue.

Further characteristics of the eCatalogue include:

- Clear layout
- Simple parts search
- For all common European commercial vehicles and axles
- Clever filtering and search options
- Display of additional items
- Context-sensitive graphics with linked individual

powered by Original PE

Index - Shock absorber and accessories
